EDP Bulletin March 2024

Rajkot has had a long history and had a significant influence in the Indian independence movement. Rajkot is home to many personalities like Mahatma Gandhi. Rajkot is in a transition period of growing cultural, industrial, and economical activities. Rajkot is the 26th largest city in India and the 22nd fastest-growing urban area in the world.

Rajkot is situated in the region called Saurashtra in the Gujarat state of India. The significance of Rajkot's location is owing to the fact that it is one of the prime industrial centres of Gujarat. Rajkot has a central location in the area called the Kathiawar peninsula. The city is located within the Rajkot district in Gujarat.

Products made in Rajkot include jewelry, silk embroidery and watch parts. Industrial products include bearings, diesel engines, kitchen knives and other cutting appliances, watch parts (cases and bracelets), automotive parts, forging industry, casting industry, machine tools, share market and software development.

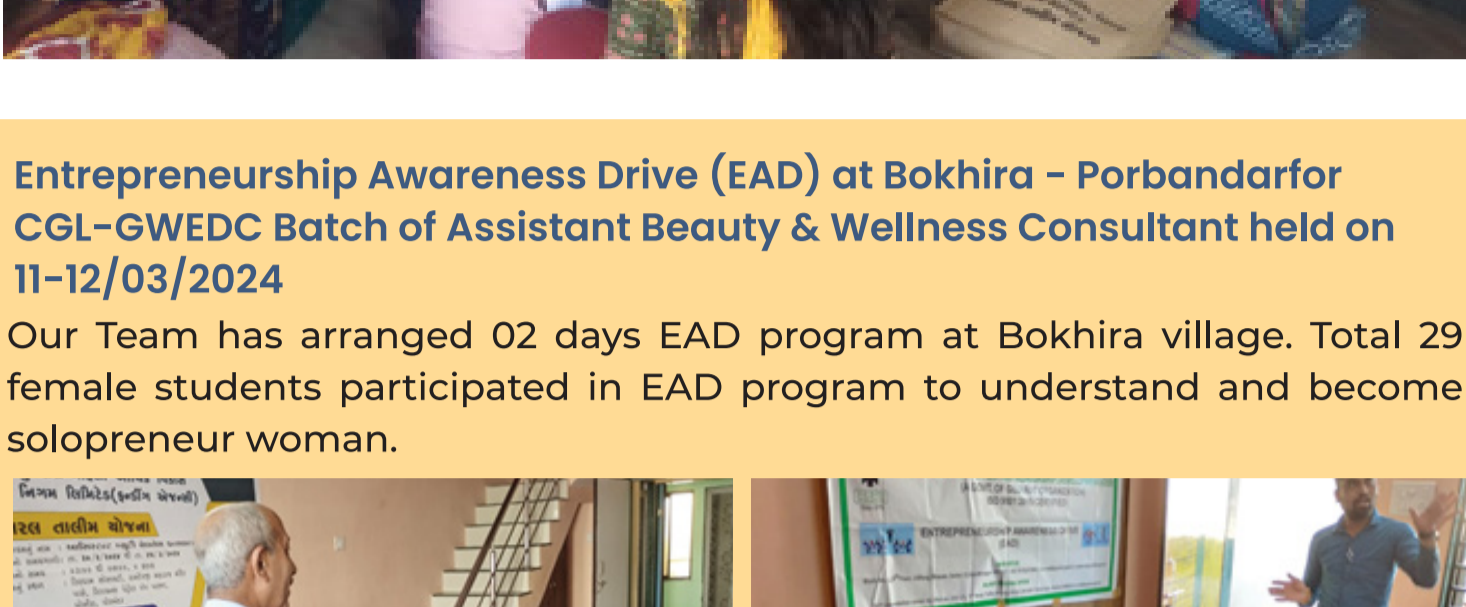

There are about 500 foundry units in Rajkot. The cluster came up mainly to cater to the casting requirements of the local diesel engine industry. The geographical spread of the cluster includes Aji Vasahat, Gondal Road, Bhavnagar Road areas, Shapar, Veraval and Metoda. The majority of foundry units in Rajkot produce grey iron castings for the domestic market. About 2% of the foundry units export castings such as electric motor castings and automobile castings.
