SECOND GENERATION PROGRAM ON GOVERNMENT BENEFICIARY SCHEMES

CED conducts training programs for existing entrepreneurs to solve their management problems in the area of technology up-gradation, product diversification, government schemes, national/international strategies, etc.

Recently, one such Second Generation Program was conducted on the topic "Govt. Beneficiaries Schemes related to Agriculture and Rural Development" at Vadodara Regional Office. In an economy that relies upon agriculture, it becomes of utmost importance to be aware of how the government protects the agri sector against fluctuations in prices, revenues, and yields.

We were pleased to have Mr. Darshan Deore, AGM, NABARD who made the participants aware of various schemes & how one can avail its benefit.
