## Ced Practicing Innovation At Work

CED is always on a spree to work innovatively by exploring new horizons and touching lives of all the segments of the society with its innovative programs, seminars and workshops.

Along with organizing special programs for different sections of the society, CED has also started visiting physically challenged institutions, deprived classes of people, economically backward women and wives' of army and police personnel to understand their challenges and their dreams. CED has been coming up with various entrepreneurship development activities for the above. The Director of CED is also keen on exploring various opportunities to develop these sectors of the society.

CED is organizing various business opportunity workshops for fields like kitchen gardening, cottage industries related business, green business, recycling business etc.
